Despondency.

When you feel discouraged and despondent do not give up but take a dose of Chamberlain's Tablets and you are almost certain to feel all right within a day or two. Despondency is very often due to indigestion and biliousness, for which these tablets are especially valuable. Obtainable everywhere.—Adv. Oct.

A REMINISCENCE OF A TOURIST.

Six years ago I spent a winter in Florida and in the following spring was looking up some place to spend the summer. I had in years past spent my summers in various resorts in the north, most of them delightful places, and concluded this season to go to one of the New England States. Prior to starting I fortunately met a prominent merchant living in the extreme South, who spoke highly of Hendersonville and suggested I could find no place to suit me so well. How glad I am that I met this gentleman and came to lovely Hendersonville. I found the scenery, water and climate far beyond his description, the hotels and boarding houses comfortable with more than reasonable rates. The altitude I found just right to build up my exhausted condition. What a change has taken place in Hendersonville during the past five seasons! A fine hospital has been built, several streets paved, and all the streets kept clean. The city hall for years a neglected unclean building has been repaired and has a hall for entertainments not surpassed by any in the State. Large sums have been expended on the country roads and now one can travel in every direction with ease and comfort.

The sanitation of the city has been perfected to such an extent as to cause favorable comment from all summer visitors. Recently seats have been placed on the principal streets, and it is pleasing to note they are daily occupied by hundreds of tourists. Greater attention is now given to the lawns in front of the beautiful homes and a walk or drive on any of the streets is a pleasing diversion. Few towns in the land have in such a short period made so many improvements all tending to benefit the citizens and visitors.

The educational interests of the city have been extended in a remarkable degree. No tourist point that I have ever visited can offer such facilities during the summer season to families of tourists. Besides the free public schools we have the military academy for boys, the Fassifern school for girls the Fleet school and Blue Ridge school for boys. The Rhododendron camp school for girls opened this season and in due time will draw many pupils from the northern states. It is managed and owned by the promoters of the Southland Seminary at St. Petersburg. The environments surrounding Hendersonville are beautiful and numerous. They are easily reached by trolley or auto. Laurel Park, only one half mile west of the city, is the most attractive to visitors. It has an electric trolley, telephone, and electric lights. During the height of the season thousands of visitors spend the day there, bathing, boating, fishing, dancing, or playing tennis or croquet. As an evidence of the prosperity of the city is the many beautiful homes now being erected. Only a few more improvements are now needed to make this the greatest summer resort in the south. These are now being considered by your city officials and your active board of trade. If adopted and

fully carried out it will cost your city a comparatively small sum. Surely not over seventy-five thousand dollars. It will however at once increase your city credit, soon double the number of visitors, double your bank deposits in a short time and bring in a class of wealthy residents who will increase your trolley lines and when needed build factories and palatial hotels. This is no guess work. It's a certainty, and can be proved by examining the wonderful growth of a few resorts that had not in the beginning half the natural attractions you have.

Respectfully yours,
ADMIRING TOURIST.
